Business Builders Co-op Offers Plan for Home Based Workers to Develop Retirement Level Income with the 'MyMoneyTree System' featuring In-demand Products and Web-based Marketing Solutions

Sales of Health and Nutrition Products are Booming in Health-Conscious Communities - New Program Provides Tools to Launch Home Business in this Industry

SEATTLE, WA - May 4, 2004 /Send2Press Newswire/ - Business Builders Co-op. (www.Homebasedprofitandhealth.com), a 10-year old business marketing company, just announced their launch of the MyMoneyTree System, a residual income generating business for home-based workers and those wanting to launch their own company, who can earn in excess of \$20,000.00 a month, in just a few months time with a little dedication and potentially without ever having to sell any products personally.

"If you have been disappointed in the past in building a home-based residual income," says David Aronov, Owner of Business Builder's Co-op., established in 1993, "this process eliminates the obstacles most people have for very low cost. This system allows anyone, regardless of his or her age, education, job position, or station in life the opportunity to make a significant amount of money. And it's all completely legal, and with a health based company that has a long and strong track record of success."

The MyMoneyTree System begins with just three simple steps:

- Step 1: Secure a Free trial position in the MyMoneyTreeSystem powerline.
- Step 2: Become a member in MyMoneyTreeSystem by ordering a Money Tree Kit which includes a Full-Color Catalog of Health Products and a variety of nutritional products.
- Step 3: Drive traffic to your MyMoneyTreeSystem website using proven techniques to find three new members who want or need to make more money by simply following the same steps. (We show you how at low cost)

Money Tree System members are further aided by the unique marketing site, which helps members succeed by placing trial members into business teams, so that you're building income streams from day one just by joining.

My Money Tree System membership support also includes:

- Regular product training
- Live nation-wide conference calls
- Conference calls with your online support team
- Additional Training and Sales aids

And the Complete Member Back Office support includes:

- A Contact Management system for Pre-Enrollees.
- A Contact Management system for Members
- Access to MyMoneyTreeSystem Training information and materials
- Access to weekly MyMoneyTreeSystem training and opportunity calls.

"We don't leave anything to chance. This system works, the only question is whether you want to be a part of it," says Aronov. "And you don't need to concern yourself about your tree being fully grown. Even while it is growing you will get paid each week as new members join. In fact, by the time your third branch is filled you will be well into profit and the first time that

your tree is completely filled it will have produced \$21,936.00."

"Should 7 branches of a 'Money Tree' be completely filled-in with each member finding only three other members, all of whom purchased one Money Tree Kit per month, the total income that would be derived from this mature Money Tree would exceed \$250,000.00 per year," says Terry Buck, CPA, formerly with Price Waterhouse. "It is possible to fill a money tree in just 85 days."

"If you think these figures are unrealistic ask yourself if just 50% of this money would positively impact your life," says Aronov. "If so, don't wait another day to join the thousands who are already enjoying a better lifestyle!"

"And," concludes Aronov, "If you are not on the Internet we have professionally prepared postcards and self-mailers you can use too."
