TeamF1 Expands Into Asian Market Through Partnership With AceTronix Korea

Bay Area Based Embedded Software Leader Taps Into Asia Pacific Region Through Recent Distribution Agreement with AceTronix Korea

FREMONT, CA - December 17, 2003 /Send2Press Newswire/ -- TeamF1, Inc. (www.TeamF1.com), the high performance embedded networking and security software company, announced today a new distribution and sales representation agreement with AceTronix, a leading provider of best-in-class embedded software products and services, headquartered in Seoul, South Korea.

Under this agreement, AceTronix will be a reseller of TeamF1's complete family of embedded software solutions in the rapidly growing Korean embedded market, representing all of TeamF1's products including security products such as V-IPSecure (IPSec and IKE), SSHield (SSH), SSLimSecure (SSL), AuthAgent Kerberos and X-Calibur 802.1X; as well as advanced networking products like NetF1, a high performance, small footprint IPv4/v6 stack with multi-instance virtual router support.

"AceTronix is known for the highest standards in choosing the lines it represents, so providing our expanding market with products from the leader in embedded security and networking was an easy choice," said Y.S. Jang, President, AceTronix Korea. "The quality of TeamF1's products and tight integration with the underlying operating system is very impressive. We are confident that our customers will find these products a great fit for their requirements."

"TeamF1 welcomes the opportunity to be part of the growth of embedded software in Korea, particularly in the area of security and connectivity," said Mukesh Lulla, President and co-founder of TeamF1. "With the help of the experienced, strong sales force of AceTronix, we will deliver the benefits of our high-end solutions to the Korean market. TeamF1 looks forward to have AceTronix Korea represent us in the Asia Pacific region and in one of the significant countries pushing the technology envelope."

AceTronix Managing Partner G.G. Kim stated, "Not only have we partnered with the leading embedded security provider in working with TeamF1, but we have also found their solutions to complement our offerings in the areas of communication protocols, network and data management, and development tools. TeamF1 really fills out our capability to offer a comprehensive solution to manufacturers of complex, infrastructural embedded devices."

Availability

All TeamF1 products are immediately available for licensing in South Korea through AceTronix (<http://www.Acetrnix.co.kr>).

About TeamF1

TeamF1, Inc., founded in 1996, is a privately-held corporation

headquartered in Fremont, CA. TeamF1's products enable secure management of telecom/datacom and industrial equipment, and provide the infrastructure components needed for switching and wireless products in various market segments.
