SRG of Colorado Springs wins \$22 Million Contract With The United States
Department Of Commerce

COLORADO SPRINGS, CO - Feb. 24, 2004 /Send2Press Newswire/ -- Systems
Research Group, Inc. (SRG - www.srgcorp.com) of Colorado Springs, CO announced
today the company has received the award of a multi-million dollar contract
with the United States Department of Commerce. The contract was awarded
through the Mountain Administration Support Center in Boulder, Colorado. SRG
was chosen to fulfill the Forecast Systems Laboratory (FSL) contract for the
next 5 years, beginning February 22, 2004.

FSL is one of the research laboratories in the Office of Oceanic and
Atmospheric Research (OAR) of the National Oceanic and Atmospheric
Administration (NOAA), which is an agency within the US Department of
Commerce. FSL transfers new technology and research findings in atmospheric,
oceanic, and hydrologic sciences to NOAA's National Weather Service (NWS) and
other users of environmental information.

SRG will provide Information Technology Systems Support for Research and
Development, as well as the Operation of the NOAA Profiler Network for FSL.
SRG has sole contractor responsibility for systems administration, computer
hardware operations, applications development, and support for research and
development.

Fred Garcia, President of SRG, said "I am very proud that SRG was chosen for
this opportunity to continue to support the advancement of weather related
research. I see it as a confirmation of SRG's philosophy to strongly support
our employees so they can excel in performing their critical functions in
service of our customers."
