Kingdom Financial Principles Announces a Debt-Reducer Package That Helps Families Eliminate Rather than Consolidate Debt.

BURLINGTON, VT - March 5, 2004 /Send2Press Newswire/ -- Kingdom Financial Principles (www.solongbills.com) today announced the launch of their new and improved Rapid Debt Reducer Software, a do-it yourself debt-elimination package designed to help families get out of debt while saving thousands in interest.

Every person struggling right now with debt has the power to eliminate their debt--without paying debt consolidation service fees, filing for bankruptcy, or taking a second job," says Gene Jolley, President of Kingdom Financial Principles and creator of the Rapid Debt Reducer software. "The Rapid Debt Reducer is like having a smart money manager at your fingertips that identifies areas of unnecessary spending and teaches consumers how to use this money to crush their debts.

There are no complicated procedures or financial formulas to learn. You just enter your monthly debt payments, your debts' interest rates and balances, and in about ten minutes the Debt Reducer Software creates a payoff plan based on debt-stacking principles and a comprehensive budgeting program designed especially for you."

Debt stacking is a simple technique that can have anyone out of debt years sooner, and save thousands in interest payments, just by paying a fixed amount on debt each month.

The Rapid Debt Reducer Package includes:

Core Program - Rapid Debt Reducer's core system stacks your debts and suggests the quickest repayment strategy.

Personal Financial Plan - Creates an easy to follow personal financial plan to eliminate debt in only 5-7 years with the money you already make.

Household Budget - Creates a simple step-by-step budget that eliminates the need for credit.

Investment Calculator - Develops a savings and investment plan for the future.

Extra Financial Tools - Ten financial calculators

Kingdom Financial Principles LLC is a debt-elimination and consulting company, assisting individuals to become debt-free in 5-7 years using only the money that they currently earn. The solutions that Kingdom Financial Principles provides by using the Debt-Free and Prosperous Living(r) System combined with the (Rapid Debt Reducer Software) their other products and services, are the most unique and complete modern day solutions available anywhere.

Gene Jolley, President of Kingdom Financial Principles, is a Certified Financial Independence Consultant, the developer of the Debt-Free and Prosperous Living software package, and a seminar leader. Gene has taught individuals about debt elimination concepts that improve their long-term financial health in one-on-one as well as seminar settings. Gene takes pride in helping others eliminate their debt, and having applied these strategies in his own life, teaches from personal experience, rather than just theory.

"The secret to becoming debt-free is that there is no secret," Jolley says.

"There is no overnight miracle cure to the problem of debt. But with a little time and self-discipline, anyone can get out of consumer debt quicksand and back on solid ground."
