National Daily Media Distribution List 2017

Send2Press® is a service of Neotrope®

This list comprises the daily newspapers, selected weekly newspapers (with circulation over 10,000), TV, and radio stations with news/talk shows which your news is sent to when choosing any of our “National” Distribution plans.

NATIONAL DAILY MEDIA – HOW TO USE OUR LISTS:

Approx. 5,200 outlets are included in this list for 2017; however, as many as 10% may be invalid at any given time due to career moves, server outages/bounces, etc.

NOTE: This list does not include “small town” weeklies, as those are only included with a matching dateline (e.g., we don’t send news to “small town” weeklies in a state not matching your dateline). So, normally you would take this list and combine with the data for your dateline state (e.g., “California”) from the “All States” larger PDF.
