

# 180 Pure CBD Launches Wholesale Program for Local Retailers

LAKE ZURICH, Ill., Sept. 20, 2019 (SEND2PRESS NEWSWIRE) – 180 Pure, a Chicago area CBD company, based in Lake Zurich, has launched a wholesale program for local retailers wishing to provide premium grade, THC-free CBD products to consumers.

Send2Press® Newswire

180 Pure is on a mission to source and curate the finest premium grade, THC-free CBD products. The company supplies 0.0% THC CBD products extracted from seed and soil sourced from photocannabinoid-rich hemp plants grown on American farms, followed by best-in-class manufacturing from certified plants, and ending with the transparency of third-party lab results.

What sets 180 Pure apart is its focus on providing training and education to wholesalers who carry the 180 Pure products.

With CBD being sold everywhere from gas stations to drug stores to department stores, it's very hard for consumers to know what they're buying and which products will best meet their needs. 180 Pure is committed to providing on-going training to equip retail partners to keep up with changes in the CBD industry – from regulations to manufacturing to products.

**180 Pure's founder, Sandra McFarland, started her business with a commitment to providing products that:**

- have 0.0% THC
- are "Broad Spectrum"
- use hemp grown in the USA
- contain no "isolates"
- include lab test results from high-quality, third-party independent testing labs
- are available in tinctures, salves, soft gels, and gummies

**The 180 Pure Retail Partner Program offers:**

- free same day shipping
- unused product buyback program and free replacements on customer returns
- 1 hour of employee training per month
- expert support for in-store customer seminars and events

180 Pure offers a selection of THC-Free CBD products, available in tinctures, salves, soft gels, and gummies. To explore 180 Pure products and obtain information on the Retail Partner program, visit <https://180pure.com/>.
