

How2Vacation.com is Internet's First Comprehensive Vacation Site

MIAMI, Fla. /Send2Press Newswire/ – Booking airline tickets on the Internet has been easy for years. But there's never been a simple way to book an entire vacation on the web, until now. How2 Group International has announced the release of www.How2Vacation.com, the first in a series of web sites that will revolutionize the way people utilize the Internet.

Send2Press® Newswire

How2Vacation.com is the only comprehensive vacation web site designed specifically to make booking a complete vacation easy. Visitors can book cruises, flights, hotel accommodations, transportation, vacation packages, plus all vacation activities such as dining, shows, tours, and more. Thanks to How2Vacation.com's user-friendly interface and excellent online support, all of this can be accomplished quickly and easily.

But the consumer benefits don't stop there. How2Vacation.com is not only a Global Distribution Systems site – it also offers a flat fee option for its advertisers. This unique hybrid advertising model is attractive to the vendors who post their services on How2Vacation.com (vacation packages, cruises, hotels, resorts, etc.), because they are spared the high commission rates charged by other travel web sites. That means lower costs for the vacationers and travelers who use How2Vacation.com. Such a combination of convenience, ease of use, and big savings will surely change forever the way consumers make travel plans.

The founders of How2Group International, which owns How2Vacation.com, have

been involved in many successful online ventures. In addition to How2Vacation.com, How2 Group International is developing an entire series of "How2" web sites, such as How2Mortgage.com, How2Rent.com, and dozens more. Look for these sites later in 2005.
