

Telefone.com Launches the Most Affordable Local and Long Distance Calling Plans in America

Unlimited and Anytime Calling to all 50 States & 20 Countries for only \$5.95 / month

SAN MATEO, Calif. – September 20 (SEND2PRESS NEWSWIRE) – Telefone.com, the leading facility-based carrier and direct provider of voice, data and broadband access, announced today the most affordable local and long distance calling rates for residential customers and mobile users nationwide.

Unlike other broadband phone companies that only allow PC-to-PC and PC-to-phone connections, Telefone.com customers can use their regular home phones and mobile phones to make unlimited (flat-rate) and anytime calls to any locations in the United States and twenty (20) countries – including Canada, United Kingdom, Russia, China, etc. for only \$5.95 / month.

“There’s no confusing software to download, no annoying VoIP adapter to install and absolutely no expensive broadband required to use Telefone.com user-friendly PIN free calling services,” said Jacques Pham, President & Co-Founder of Telefone.com. “With no per minute fees, no connection fees and no annual contract, customers can now truly talk more and pay less with Telefone.com”

In addition to the guaranteed lowest rates on voice dialing, Telefone.com offer free dial-up access (with BrowseBlast) and free high-speed DSL on all Global Freedom and Global Business plans. Each customer also has access to exceptional 24/7 live support from Telefone.com award-winning customer service team and a generous thirty (30) day money-back guarantee on their respective purchase.
