

TravelNet Solutions Creates a Rush for Travel Deals in Unique Destinations at ResortsandLodges.com

New incrediDEALS(TM) product offers exclusive travel deals to last minute shoppers, bargain hunters.

SAINT PAUL, MN (SEND2PRESS NEWSWIRE) – With the launch of its incrediDEALS(TM) product, TravelNet Solutions has tapped into a market of millions of consumers who want more than the standard deals offered by most travel sites.

Send2Press® Newswire Having

established themselves as the premier source of online vacation planning with their flagship brand – ResortsandLodges.com (<http://www.resortsandlodges.com>) – they are now extending their value to the consumer by providing last-minute deals to unique destinations.

Some of the specials offered through incrediDEALS will include family and romantic getaways, top ski and golf vacations, rustic hunting and fishing lodges, and luxury resorts by the sea.

According to TravelNet Solutions' President and CEO, Charles R. Bailey, "We've built exclusive partnerships with unique properties domestically and around the world. We can offer unpublished deals at resorts and lodges other travel sites don't even know exist."

When Mr. Bailey says these are unpublished deals, he means it. These are not "pooled" deals that are cycled and recycled through most travel sites. Instead, TravelNet Solutions has worked directly with resorts and lodges to create these timely specials. They are not found anywhere other than ResortsandLodges.com.

Registered users of the site will have immediate access to these special offers, which will be updated weekly. To make incrediDEALS even more "user friendly," subscribers will be emailed a weekly newsletter specific to the regions in which they've expressed an interest.

To find out more about incrediDEALS, visit www.resortsandlodges.com/incredideals.html

ResortsandLodges.com is the largest and most comprehensive travel guide for resorts, lodges, and vacations worldwide. Founded in 1998, we were one of the first leisure travel sites established on the Internet. The web site allows travel planners to search for vacation properties by geographic location, lodging type, featured activities, and price range. Visit ResortsandLodges.com to plan and book your next unique vacation!
