Send2Press® Newswire MFH

Productions started several years ago as a group of Actors and musicians from New York and Boston who collaborated on live music performances and impromptu theatre pieces. We contributed our writing, acting and music to benefits in both Boston and New York including Festival del Pueblo, La Rivolta!, The Vagina Monologues and Women for Women. We have since teamed up with director Janet Bobcean where our mission has been to bring original plays to the Boston stage. Our goal, as always is to continue to ask questions, push boundaries, and explore our humanity.

Our premiere play Charlotte the Destroyer is a dark Comedy about a washed up children's book author whose drinking problem and death anxiety sabotage her

ability to write. With a deadline long past, the writer's poisoned thoughts manifest in the twisted behavior of her characters. This piece promises to drag you squirming and laughing into the New Year!
