

Therapy Partner Automated Billing Solution for Mental Health Professionals Cuts Time and Costs in Half

DENVER, CO (SEND2PRESS NEWSWIRE) – Therapy Partner Corporation, offering financial solutions for the mental health marketplace, today announced the launch of Therapy Partner, an online billing, no interest payment plan, and collection solution that supports the unique therapeutic relationship between mental health providers and their clients in a paperless, secure, internet-based environment.

“With Therapy Partner, mental health professionals can now conduct all of their billing and associated administrative tasks in just 5 minutes per day, while simultaneously cutting their expenses in half,” said Dr. Jessica Dolgan, Psy.D., Founder and CEO of Therapy Partner Corp. “Providers who use Therapy Partner online billing, collection, and no interest payment plan services report that revenues previously lost to administrative expenses, banking costs, and client billing inefficiencies are now being channeled directly into increased profits, and a significantly improved bottom line.”

Here are just a few of the features and benefits enjoyed by Therapy Partner clients:

- * Improved Cash Flow: Therapy Partner Providers receive payment at the time of service while offering more payment options by accepting credit cards, electronic checks and automatic drafts. Funds are electronically transferred to the Providers account eliminating the need for time consuming bank deposits and tracking procedures.
- * Increased Administrative Efficiency: Therapy Partner eliminates the need for cumbersome and costly office software, supplies, not to mention the countless hours spent conducting billing and administrative tasks. There is no need to establish and maintain a merchant account. Providers receive a tax ready statement of all transactions by email each month.
- * Enhanced Patient Satisfaction: Therapy Partner Providers can access session as well as billing histories online and generate their own statements 24/7/365. Each month insurance-ready statements are automatically generated and distributed to clients. Furthermore, Therapy Partner is secure & HIPAA compliant.
- * Value Protection: Therapy Partner eliminates the need to slide fees in order to accommodate clients with limited access to

immediate funds. Therapy Partner Providers are able offer no interest payment plans through the Therapy Partner service. Payments are automatically tracked and collected during and after the course of treatment. Full collection services are included.

* Increased Focus: Therapy Partner takes care of billing and administrative hassles, allowing mental health professionals to do what they do best, provide excellent care, save time, and generate increased profits, all without taking on more clientele.

Therapy Partner Providers pay just \$100 a month plus a small transaction fee for 24-hour worldwide access to account information and management. Providers or their practice administrators can log on, manage accounts, access all client contact information, billing statements, and diagnostics; and are alerted about account changes and defaulted payments. Providers can add transactions, view payment history, access payment plans, edit/audit accounts and watch as they are paid directly into their business account as their clients attend treatment.

To celebrate their launch, Therapy Partner is offering new clients their first six months of membership completely free of charge, and may receive an additional 6 months if they sign up a colleague.
