Send2Press® Newswire “This

book, written by Masha Zager, has more instructional tips and tricks than any other sudoku book on the market today,” notes Richard White, Publisher at Sams Technical Publishing. “It is perfectly timed to help those learning to play Sudoku,”

With puzzles of varying difficulties, puzzles with words, and puzzles with symbols, this book will appeal to players of all levels. Its wider boxes make for easier play, allowing for more room to write in potential answers.

Sudoku puzzles have taken the U.S. by storm over the past year, with puzzles popping up in newspapers, magazines, and online. Players find the puzzles to be intellectually stimulating. The puzzles are solved by logic, not math, so those afraid of numbers and math can enjoy them too!

Author Masha Zager lives in New York City and is an avid puzzle player. With a crossword puzzle published in the New York Times, she is experienced at creating puzzles.
