

# Make \$10,000 from the IRS Turning in Your Tax Cheat Neighbor, says Financial Guru Matthew Lesko

WASHINGTON, D.C. (SEND2PRESS NEWSWIRE) – If you see your neighbor buying a new \$50,000 Mercedes on a teacher's salary or you overhear that nasty no-good co-worker brag talking about how he never pays his taxes, well then government financial guru, Matthew Lesko ([www.lesko.com/taxcheat.php](http://www.lesko.com/taxcheat.php)) says: "STOP being Mr. Nice Guy and bank big money while you help the IRS collect back taxes." If your information helps the government collect on such taxes, you can receive 15% of what the IRS collects up to a total of \$10 million. And the IRS will not disclose the identity of informants to unauthorized persons. So, go and do the right thing for your country!
