

Epeius Biotechnologies Establishes Corporate Headquarters in San Marino, California – Facilities Include a Clinical Research Unit Dedicated to Evaluating New Genetic Medicine for Cancer

SAN MARINO, CA – April 4 (SEND2PRESS NEWSWIRE) – Epeius Biotechnologies Corporation (www.epeiusbiotech.com) announced today the establishment of its main corporate headquarters in San Marino, California. The specialty pharmaceutical company has been granted Orphan Drug Status by the FDA for its lead product Regin-G(TM), an innovative anti-cancer agent that seeks out and destroys metastatic disease. Regin-G(TM) has been tested in a wide variety of cancer types, including pancreatic cancer, breast cancer, colon cancer, uterine cancer, laryngeal cancer, smooth muscle cancer (leiomyosarcoma) and skin cancer (malignant melanoma).

Regin-G(TM) is currently in clinical trials for metastatic pancreatic cancer at Mayo Clinic, Rochester, Minnesota, USA and is available for all solid tumors through an expanded access program in Manila, Philippines. The new headquarters in San Marino is located on the prestigious Huntington Drive and

will integrate corporate offices, medical laboratories, and a Clinical Research Unit in appealing garden setting.
