We're passing this knowledge on to the people of this community through our local club's work and this great seminar!

Ever wanted to take on a full-grown jungle tiger single-handed? You say, "Of course not! I'd be torn to shreds!"

What if the tiger were invisible ... or you were blindfolded? What chance would you have then? Sound impossible? Ridiculous odds against you?

Yet tens-of-thousands of really nice folks with winnable lawsuits do exactly this every day the courthouse doors are open, all because they either can't afford a lawyer or aren't sure they can trust the lawyer they have – good people who are torn to shreds because they don't have the first idea what it takes to win.

You can win lawsuits without a lawyer. If you have a lawyer you're not sure of, you need to learn how to control the lawyer, to make certain he or she is doing everything necessary to defeat the other side.

Don't let the professionals eat you alive!

Simplified lawsuit self-help step-by-step seminar presented by experienced

author/attorney Dr. Frederick Graves makes it easy to file or defend lawsuits with or without a lawyer. Protect yourself from legal abuse!
