

Top 12 Critical Stock Trading Questions Answered in New Step-By-Step Special Report by 30 Year Trading Veteran

From beginner to expert, over 20,000 stock traders participate in landmark survey

DETROIT, MI – May 11 (SEND2PRESS NEWSWIRE) – Profits Run, Inc., has announced online availability of their new Stock Swing Trading Special Report. It provides step-by-step answers to the Top 12 questions over 20,000 active stock traders asked their president, Bill Poulos, in a recent survey. This report provides free stock trading strategies usually only found in high-priced seminars.

Send2Press® Newswire

“What I discovered after conducting this survey,” explained Poulos, “is that most traders don’t have a method to trade the markets, which is exposing them to needless risk.” Poulos said that his report addresses the core challenges faced by all traders today, and he added, “I’m going to eventually sell this report for \$97, but so many traders are setting themselves up to fail, I want to give it away to as many as possible because I believe they urgently need help.”

Poulos' 44-page report includes sections on predicting market direction, indicators & timeframes, entry point strategies, and more. The most popular section, according to Poulos, is his Free Trade Strategy, which teaches traders how to enter a trade and take a quick and early profit; then allows them to fine-tune the trade, essentially guaranteeing a free trade in the event the market turns against them.

An early version of the Stock Swing Trading Special Report has been downloaded over 17,000 times from the Profits Run Website. "When I saw how many traders accessed my report," said Poulos, "It proved to me that I was on to something. My goal is to help as many traders as possible trade stocks in a smart and educated way, allowing them to manage risk effectively and maximize their chance for potential profits."

Profits Run is making available an updated version of its Stock Swing Trading Special Report online at <http://www.quantumswingtrader.com/report>

About Profits Run, Inc
