

# Brown Investments, Inc. Announces ATM Placements in Tennessee and Mississippi Airports

NASHVILLE, TN – May 23 (SEND2PRESS NEWSWIRE) – The Memphis International Airport and the Tunica Airport in Mississippi are part of Brown Investments' plan to expand into the airports, hotels and office buildings markets. Brown Investments, Inc. is a full-service business brokerage and investments firm, specializing in the placement and sale of ATMs.

**Send2Press® Newswire** “We

currently have 70 ATMs in casinos,” John Edwards, COO said, “located in Las Vegas, Reno, Lake Tahoe and Atlantic City. The casino markets are great, but we want to make sure that we are exploring all options when it comes to additional markets.”

The company is a member of the Better Business Bureau; Nashville Area Chamber of Commerce; the ATM Industry Association; and the International Business Brokers' Association.

“Our membership in these organizations,” said Edwards, “requires us to maintain the highest level of customer service and ethical standards.”

Brown Investments, Inc. is also one of the largest, private owners of ATMs in the country. Edwards and Keevin Morgan, CEO, bring nearly 30 years of combined business management, leadership and sales experience to the table.

"It is because of our success in this lucrative market," explained Edwards, "that we have made this business opportunity available to others."

The company offers a turnkey investment solution for businesses who are interested in building substantial income, with minimal effort. The ATM business package includes: a complete, lifetime service contract; site selection and lease negotiations; and cash rental and replenishment options.

These services can increase sales and profits, provide customer convenience, create necessity, improve security and carve out a competitive edge.

"30 years ago, the term 'ATM' did not exist," Edwards said. "Today, it's an integral part of our language, culture and everyday lives. Practically every wallet holds a debit or credit card, creating the need for more ATMs on the retail level."

Where ATMs once appeared mainly in banks, they are, daily, popping up in locations all over. Specifically, the need for an installed ATM in the vicinity of malls, in office buildings, casinos, gas stations, airports and hotels will become a valuable asset.

"The ATM market is predicted to grow tenfold in just four years," Edwards explained, "increasing industry revenue from \$415 million to more than \$5 billion."

Brown Investments, Inc. offers a free ATM placement program for qualified merchants. To learn more about these services, visit their Website at [www.browninvestmentsinc.com](http://www.browninvestmentsinc.com) to see how businesses can benefit.
