

# Card Collecting In The Great Indoors: There's A New Ballgame In Town

BRISTOL, CT – June 5 (SEND2PRESS NEWSWIRE) – BM Publishing LLC has announced that they have released The Official Indoor Football Trading Card Price Guide (ISBN: 1424301416). This is the first trading card guide of its kind. This scheduled annual publication will feature team issued and mass production trading card sets and single player cards from 5 different indoor football leagues and over 100 sets dating back to 1992.

**Send2Press® Newswire**

The cult-like fan base of the indoor football game knows that the action never stops. What started out as a whisper nearly 20 years ago, is now one of the fastest growing sports in the United States. With the popularity of the indoor game rising and the recently produced Upper Deck trading cards, this hobby is becoming a solid player in the trading card collecting sport.

Until now, these card collectors were left with little or no information on these cards. Many players have taken their game to the next level, which brings more exposure to these leagues; yet again their player cards are left behind. Many of these cards are found on team websites and online auction sites. Some of these sets bring a premium price, even in the hundreds of dollars.

Collectors can now rely on The Official Indoor Football Trading Card Price Guide for quality photos, descriptions and pricing for the most exciting sport in the U.S.; Indoor Football. Annually between March and April

collectors and fans will find the newest editions of the guide, the most up-to-date and accurate price source for indoor football trading cards.
