As

Percento Technologies, the company will continue to bring the same high quality of personalized service to which their customers have grown accustomed. Percento will continue to provide the same high level of service with no change to ownership or staff.

Percento Technologies is a multi-disciplined international consulting firm based in Houston, Texas. Percento specializes in providing the technological support necessary for any-sized businesses to succeed in today's world. As your "Part-Time IT department," Percento Technologies will provide companies with innovative computer, network, telecommunication, cabling solutions, and custom programming that are convenient and reliable.

Percento works closely with clients to define its role on each project. By combining clients' objectives with consultants' expertise, Percento develops a joint approach to solving the technological business challenges that face business in the most cost effective way.

Percento Technologies' areas of expertise are:

- * Computer Networking
- * IT Outsourcing
- * Wireless Solutions
- * Business Telephone Systems
- * High Speed Internet Access | T-1 Broadband
- * Data and Voice Cabling Services
- * Website Solutions

Percento Technologies attributes its success to an extraordinary 89% rate of repeat and referral business, and the skill and dedication of its experienced consultants. The firm prides itself on the promise on which it was founded and which it has consistently fulfilled since its inception: Do whatever it takes to deliver the right results on time and on budget – no excuses.
