Mr.

Brosious went on to say, “This second office building will be referred to as the ‘American Freight Companies Trinity Office.’ It will be home for the Volume Services and our Marketing Department. We also have plans to develop new departments or companies that will specialize in freight related services that we are not currently serving. These new companies are already under development with business plans, marketing, and software programs being built at this time.”

“Our customers include residential and commercial shippers of every type and size. They include individuals who are shipping freight for the first time,

eBay shippers, Internet based business, large corporations and small companies. We also arrange freight for colleges, city municipalities, state and federal agencies. Annually we arrange transportation for thousands of shippers. Representing millions of dollars in freight volume gives us the ability to offer our customers services, rates and discounts they are not able to obtain on their own. This expansion into a second office will be completed sometime in early 2007."
