August 28-31, 2006 – Accessories at Hilton, booth AC40127.

### **Kimono Leather Handbags**

The kimono bags are made with vintage Japanese brocade obis and uchikakes. Obis are the sash of the kimonos and the uchikakes are the wedding kimonos worn by the brides. Each handbag is unique because no kimono is the same design. Much care has been taken into the construction and design of these handbags- from the quality of the leather to the inner brocade lining. Sizes range from small shoulder bags to large slouchy hobos with extendable zippers on the base.

### **70s Inspired Leather Handbags**

These leather handbags are based on flea market finds picked up while traveling to Paris, Thailand and India. Studs, fringe and tassels are featured in this line, from small belt pouches, clutch bags and shoulder bags. The leather is both strong and soft, which will wear nicely in time.

### **Jewelry**

Our jewelry line is a result of interesting beads and antique artifacts collected in her travels to Europe and Asia. All items are one-off and include semi-precious stones, mosaic, mammoth ivory and jade beads.

### **Inspira Fashion**

This is a fun line of quirky and romantic bags pieced from ornate fabrics and trims for a glamorous and fun look.
