

Never Check It Offers Pre-approved Travel Sized Toiletries for Travelers

BOTHELL, Wash. – Sept. 25 (SEND2PRESS NEWSWIRE) – Victor Cox, CEO of Never Check It (www.nevercheckit.com), has formed a strategic affiliation with Minimus, the world leader in all things travel-sized, to offer travelers the ability to purchase approved toiletries and other banned items before they fly in the wake of today's TSA announcement. This will ensure that travelers will be able to carry-on luggage, which will save valuable time, money, and help alleviate the stress associated with travel.

Never Check it.com

A FREE service for People on the go!

“Our site is dedicated to help travelers continue to carry-on luggage and is constantly evolving to meet the demands of travelers, which is why we are very excited about our newest affiliation with Minimus. Minimus will offer toiletries that meet the new weight restrictions and also have pre-selected travel kits that are conveniently packaged in durable, re-usable vinyl containers for carry-on luggage,” Cox says.

“We welcome Mr. Cox and his Never Check It business to the Minimus family of affiliates. We believe his company offers a valuable service to the traveling public, and we are looking forward to working closely with him,” said Paul Shrater, Co-Founder and Vice President of Marketing for Minimus.

“Our vision is to create a ‘one stop supplier’ of bedroom and bathroom requirements, so travelers can either order pre-approved toiletries through Minimus, use our Quick Service Form to confirm toiletries offered at their hotel of choice or ship their luggage directly to their destination,” Cox says.

“Here, at NeverCheckIt.com, we are in the process of building our associations and partnerships to help give our customers more health, beauty and travel options and more information about the hotel they have chosen. We understand that the current situation is constantly changing and we will continually evolve to meet the travelers’ needs.”

Never Check It is a service that will help travelers save valuable time and money by allowing them to keep their luggage at their side. For more information, contact Mr. Cox at Cox_Victor@hotmail.com or visit www.NeverCheckIt.com.
