

Perspectives on Suicide Bombing Forum Hosted by Gulf Coast Security Provider in October

Event is First in Series 'From the Fence Line to the Boardroom' hosted by
Infrastruct Security, Inc.

HOUSTON, Texas – Oct. 12 (SEND2PRESS NEWSWIRE) – MEDIA ADVISORY: Infrastruct Security, Inc. (www.infrastructsecurity.com) will host the security forum 'Perspectives on Suicide Bombing' on South Padre Island, Texas, from October 27-29, 2006. The three-day Forum, for security directors of large corporations in critical infrastructure and first responders, will feature prominent experts' input about how the next suicide bombing attack might affect your business.

Members of the media interested in attending should contact
awray@infrastructsecurity.com

Send2Press® Newswire

Topics will include: The History of Suicide Bombings, The Psychology and Motivation of Suicide Bombers and The Tactical Analysis of Real-life Incidents. Perspectives on Suicide Bombing is the first forum in the series 'From the Fence Line to the Boardroom' hosted by Infrastruct Security, Inc.

“Suicide bombings are something companies in the U.S. haven’t had to think much about before. But threats and events of the past few years are changing that, and it is more important than ever that people here in the Houston and petrochemical Gulf Coast area understand the phenomenon and its potential impact on their business,” says Offer Baruch, Senior Security Consultant, Infrastruct Security, Inc.

Keynote speaker is Kerry Spaulding, Protective Security Adviser (PSA), U.S. Department of Homeland Security Protective Security Division, Houston District. Spaulding will begin the forum and other speakers include Hanan Yadin, Founder and CEO of Instinctive Shooting International, Inc. (ISI) and Offer Baruch, Senior Security Consultant, Infrastruct Security, Inc. All three speakers are experts in the field of terrorism and have over 50 years combined experience.
