It is like an internal make-over; because the work is experiential and body-based, people begin to project a glow of sexual magnetism immediately. A client from New York confessed "I have been seeing my therapist for years, and I never had this deep emotional breakthrough like I had with you after

two sessions.”

In their popular Become an Extraordinary Lover(TM) workshop, men learn everything from the arts of romance and seduction to advanced pleasure techniques. “I can’t believe no one ever gave me this information about women before. I went home and practiced with my partner and we had more passionate sex than we’ve ever had. I can’t wait for Level 2!” said an excited workshop participant from San Francisco. Become an Irresistible Sex Goddess(TM) is one of several workshops available for women. An enthusiastic client from Oakland, California expressed: “I couldn’t believe that I would be able to experience an orgasm with my partner, but after only a few sessions I learned a new way to orgasm and how to teach my partner to help me reach it!”

“There are many people who were brought up to believe the myth that sex should always come naturally. In reality, though, sex is a skill that can be learned and enhanced,” says Celeste. Danielle adds, “Our bodies hold the potential for amazing and mind-blowing pleasure; we help people learn how to get there over and over again.”

Dr. Danielle Harel and Celeste Hirschman, M.A. are teaching and researching sexuality in San Francisco and the greater Bay Area. Through expert coaching and experiential workshops, they help their clients overcome barriers and reach their highest sexual potential.
