

NOW Micro, Inc Awarded Minnesota State Information Technology Solutions (ITS) Contract

SAINT PAUL, Minn. – Aug. 9 (SEND2PRESS NEWSWIRE) – NOW Micro, Inc., a manufacturer of custom configured computer systems based in St. Paul, was recently awarded a contract with the State of Minnesota for the purpose of providing Information Technology Solutions (ITS) Products and Services.

“NOW Micro is well positioned to serve the State’s complex needs and requirements because of our local presence and size,” stated Bob Milam, Vice President of NOW Micro. “The State’s decision to award us this contract is a testament to our abilities and competitive offerings.”

Under the terms of the contract, NOW Micro will provide information technology solutions and services (Computer Hardware, Maintenance, and Technical Services) to the State of Minnesota. This encompasses over 1,100 entities, including state agencies, counties, cities, school districts and higher education.

“We are very excited about this relationship with the State,” said Patrick Finn, President of NOW Micro. “This contract win gives us the ability to further our existing relationships with our education customers and opportunity to expand our business further in the public sector.”

About NOW Micro, Inc.

NOW Micro, Inc. is a Minnesota based technology and solutions provider with its headquarters in the heart of St. Paul. Since 1993, NOW Micro has manufactured and exclusively distributed computer systems under the Frontier Systems brand.

NOW Micro offers unique and specialized OEM and Commercial technology solutions for customers nationwide. In addition to our Frontier Systems, we offer customized solutions from many of the most recognized computer brands in the industry.
