MOORHEAD, Minn. – Aug. 24 (SEND2PRESS NEWSWIRE) – Eagle Enterprises, a financial consulting firm, announces its new publishing division, Eagle Publishing, and launches its first book – The Ultimate Credit Repair Book (ISBN: 10-0-9798153-0-4 or 978-0-9798153-0-0). Authored by James Young, the book guides readers who are seeking to repair their credit or to improve their credit score by 120 points or more.

Send2Press Newswire The Ultimate Credit Repair Book shows readers how to wipe out bankruptcy, remove foreclosures, clear repossessions, sweep away tax liens, and purge late payments.

“Good credit usually means better financing,” Young said. “And, better financing yields extra money that can be used for other things such as a much needed vacation hideaway or college tuition.”

Not only does the book provide how-to information, it also offers peace of mind and provides readers with inside secrets that bankers and creditors have successfully kept under wraps, until now.

“It’s an absolutely indispensable resource,” M. Houser, a Pennsylvania reader said. “I wish I had it 10 years ago.”

Topics are presented on an array of credit repair issues and reveal ways to get started on the path to financial freedom today. The book teaches people how to stop harassing credit calls with one phone call; nine easy steps to improving a credit score; how to pay off debts pennies on the dollar; how to recognize debt-consolidation company warning signs, and much more.

“Credit scores are important,” Young said. “They can make or break a deal. Some employers also check credit scores to determine job suitability and insurance companies sometimes research credit scores before quoting a policy on a car or home.”

Over 15 years ago, Young experienced a personal financial crisis which led him to researching the ins and outs of credit repair. Seven years ago, he founded Eagle Enterprises and has been providing financial advice and

creating practical, how-to financial resources ever since.

The Ultimate Credit Repair Book promises to give readers a fresh start and a clean bill of economic health.
