Working closely with Mr. Huntington will enable AIS to maximize company growth significantly. Under his guidance and that of the book “Mastering the Rockefeller Habits,” AIS has implemented key strategies that have identified core company values, opened up new market opportunities, increased revenue potential, and ensured continued delivery of the AIS brand promise “Delivering Wealth Qualified Investors to fund high potential opportunities with strong growth companies.”

“We are creating an empowering organization that is truly staged for growth – thanks to Ron Huntington and Verne Harnish. The Rockefeller Habits provided

AIS with a wealth of tools to create a strong executive team with a strategic vision to implement AIS's one-page strategic plan. We now have the whole team aligned from top to bottom, hyper-focused on our purpose – coaching people to make their financial dreams a reality through access, insight, and investor education," stated Joel Craft, CEO of American Information Strategies.

"By empowering investors with valuable tools that track their assets and investments, AIS will become a true asset to investors, thanks to Ron and Verne's strategic leadership. It is our goal for the Wealth Factor to be the number one investment tool used by investors and financial institutions to measure and evaluate their financial strength."
