

Club Sentry Selects SecuGen(R) Hamster(TM) Fingerprint Readers for Use with Biometric Check-in Software

SANTA CLARA, Calif., March 10 (SEND2PRESS NEWSWIRE) – SecuGen is pleased to announce that Club Sentry, Inc. has chosen SecuGen's Hamster fingerprint readers for integration with Club Sentry's club management software. The Hamster readers will be used to scan fingerprints of members when they check-in and check-out through Club Sentry's Biometric ID software module.

Send2Press Newswire

The Biometric ID module interfaces with the Hamster fingerprint reader and Club Sentry's Base Module that provides basic functionality any membership organization would need to track members, residents and employees. Check-in, Member tracking, custom membership creation, e-mail or postal delivery mail-merge letters, employee tracking, security and a wide variety of reports make up the Club Sentry Base Module. Advanced modules include Billing, POS, Credit Card processing, Photo ID, ID Card Printing, extra Workstations and Dual Screen Check-in, as well as the Fingerprint module.

"We chose the SecuGen Hamster fingerprint readers because of their great accuracy, unique durability, and affordable price," said Scott Rodgers, CEO of Club Sentry, Inc. "Our goal is to deliver to our customers best in breed hardware along with our best of breed software. SecuGen was the logical choice."

Won Lee, CEO of SecuGen added, "We are very pleased to be partnering with Club Sentry Software. They have tremendous expertise in developing software for managing organizational membership. We believe that biometrics adds clear value to membership management software, and we anticipate rapid growth in this area."

About Club Sentry

Club Sentry Software was founded in Northport, New York, in 2002 by people with years of experience creating software for the club management industry. With the goal of creating a complete management package that doesn't need an IT department to run and can be used in a variety of industries around the world, Club Sentry Software has been installed across the globe in the U.K., the Middle East, the Caribbean, the Bahamas, New Zealand, Ireland, the South Pacific and across North America. Club Sentry continues to expand its appeal by aggressively adding new features, enhancing existing functionality and integrating new services and hardware options.
