Perception Software Signs Partnership Agreement with Siemens PLM Software

Provides seamless EDA client integration to Teamcenter

AUSTIN, Texas, March 11 (SEND2PRESS NEWSWIRE) — Perception Software today announced an agreement with Siemens PLM Software to integrate Perception's EDAConnect(TM) family of products with Siemens PLM Software's Teamcenter(R) product lifecycle management (PLM) software portfolio. As part of this agreement Perception Software will sell and support EDAConnect integrated directly with Teamcenter as a Siemens Solution Program PLM Software Partner. The product will be marketed as EDAConnect-Teamcenter.

Send2Press® Newswire

Perception Software's EDAConnect-Teamcenter product family include: EDAConnect-PCB for integrating electronic systems design tools from Cadence Design Systems, Mentor Graphics, Zuken, and other EDA tool vendors; EDAConnect-SiP for integrating system-in-package tools from Cadence; and EDAConnect-ADW for integrating Cadence's Allegro Design Workbench. The EDAConnect-Teamcenter family of products gives electronic engineers and designers relevant enterprise data during the product design cycle, enabling better engineering decisions and fewer re-designs. Using EDAConnect-Teamcenter engineers spend more time designing and less time searching for data or performing administrative tasks.

“Through a strategic combination of internal development and third-party partnerships, Siemens PLM Software has a long history of providing our customers with the best-in-class tools they need to meet their business challenges,” said Steve Bashada, vice president of Teamcenter Applications, Siemens PLM software. “The welcome addition of Perception Software to our partnership program further expands the ability for our Teamcenter customers to select from a broad spectrum of high quality solutions.”

“Siemens PLM Software’s Teamcenter application is considered the leader in engineering product lifecycle management functionality. We think high-tech electronics and semiconductor customers will be very pleased with the combination of EDAConnect and Teamcenter,” said Joe Dalton, CEO of Perception Software.

About Perception Software
Founded in 2005, Perception Software provides engineering productivity applications for electronic design engineers and managers. Based in Austin, TX, the company is privately held. For more information, please visit www.perceptionsoftware.com.

Siemens and the Siemens logo are registered trademarks of Siemens AG. Teamcenter is a registered trademark of Siemens Product Lifecycle Management Software Inc. or its subsidiaries in the United States and in other countries.
