The highly-anticipated launch of V4.3 includes the Mailscape Global Console for multi-national deployments, automated push upgrades for monitored servers and Microsoft Exchange 2007 support. In addition, several new and enhanced reports have been introduced to help administrators optimize email system performance and track database growth.

“Mailscape is the cumulative result of a decade of experience in managing Exchange using both manual processes and third-party point solutions,” says ENow’s Principal Architect JP Gundotra. “It was designed by Exchange administrators for Exchange administrators. We built Mailscape to make our jobs-and yours-easier.”

“I would have to say that Mailscape is the most impressive and intuitive Exchange tool I’ve ever seen. It’s a MUST for any IT team managing Exchange,” says Brian Scott, IT Manager for Twistbox Entertainment.
