

# Awareness Seminar Advocates Free Intuition for Success

SAN DIEGO, Calif., June 19 (SEND2PRESS NEWSWIRE) – Age of Awareness today announced two seminars; Free Your Intuition and Magic, Metaphysics or Just Plain Real? to be held at the University of San Diego on June 20 and 21, 2008. These workshops are designed for educators, business executives and self help individuals who are dedicated to using their intuitive skills.

“Most people treat their own intuition like an embarrassing disease,” said Weston Jolly author and spiritual channel of Age of Awareness. “Intuition is as natural as dreaming and the best minds in world recognize it to be invaluable – so why deny it?”

According to Jolly, intuition is a link to higher consciousness. Regardless of religious or spiritual belief everyone experiences intuitive hits. These gut feelings save peoples lives, inspire others to create and are the catalyst to great decision making.

He says the pay off is obvious, in quoting Bill Gates CEO and co-founder of Microsoft, “Often you have to rely on intuition.” Integrating intuition for empowered living is the now in vogue claims Jolly.

The seminar will also address observation of intuitive thoughts, elimination of intuitive blocks and conscious interaction in connecting intuitively. Started in 1991, Age of Awareness has been founded to create clear insight to higher self. Weston Jolly, chairman and celebrated author of the book Is God With Us?
