

ORCS Web Selected for Inc. 5000 List of Fastest-Growing Companies

CHARLOTTE, N.C. (SEND2PRESS NEWSWIRE) – ORCS Web earned a spot on the Inc. 5000 list of the fastest-growing private companies in the nation for the second year in a row. With revenue growth of more than 150% in three years, ORCS Web ranks in the top half of the Inc. 5000 list, released yesterday.

ORCS Web is one of only seven IT Services companies in North Carolina to make the list. One other Charlotte-area IT Services company is on the list, and only 21 Charlotte-based companies are included across all industries.

“We’re gratified that our focus on serving our clients has translated into business growth,” said Brad Kingsley, President and CEO of ORCS Web. “Growing has been a by-product, not the goal; what drives us is doing whatever it takes to make our clients want to tell everyone they know how great it is to have us do their hosting.”

Criteria for the Inc. 5000 list (www.inc.com/inc5000) are that the company must have had a full year of revenue at least by the first week of 2004, must be U.S.-based, privately held, for profit, and independent (not a subsidiary or division of another company) as of December 31, 2007. Revenue in 2004 must have been at least \$200,000 and in 2007 at least \$2 million to qualify.

About ORCS Web

ORCS Web is a Charlotte-based web hosting firm that has provided managed hosting solutions since 1996 for clients in more than 70 countries who develop and deploy their applications on Microsoft Windows platforms. Services include shared hosting, dedicated hosting, and webfarm hosting, with specialty in ASP.NET, SQL Server, and architecting highly scalable solutions. ORCS Web’s dedication to being Number One in customer service offers an Unrivaled Windows Web Hosting Experience. ORCS Web is a Gold Certified Microsoft Partner.
