

KICTeam and Canon U.S.A. Announce the Use of Waffletechnology in the New Canon CR-Series Check Transport Cleaning Card

Product to Help Increase Efficiency and Reduce Maintenance Costs

AUBURN, Maine, Oct. 6 (SEND2PRESS NEWSWIRE) – KICTeam, the industry leader in the manufacture of cleaning cards, and Canon U.S.A., Inc., a leading provider of digital imaging technology, today announce the use of Waffletechnology(TM) in the new Canon CR-Series Check Transport Cleaning Card. In an effort to increase efficiency and lower maintenance costs, the Canon CR-Series Check Transport Cleaning Card with Waffletechnology enables banking and retail outlets to effectively clean Canon imageFORMULA CR-Series check transports.

Send2Press® Newswire

“Canon’s CR-Series Check Transport Cleaning Card with Waffletechnology will be introduced as part of an overall preventative maintenance program,” said Jim Rosetta, vice president and general manager, Imaging Systems Group, Canon U.S.A. “KICTeam’s Canon Check Transport Cleaning Card with Waffletechnology offers Canon customers an excellent way to clean the device, helping to

increase the products' longevity and maintain its image quality."

"Shortly after the implementation of Check 21, recognizing that check scanners work best when cleaned on a regular basis, KICTeam developed an industry-wide adaptable and innovative solution," explained Peter Klein, president and CEO, KICTeam. "Our goal is to ensure optimization of check scanner performance when converting paper documents to digital images thereby increasing reliability for Canon customers."

The Canon Check Transport Cleaning Card with Waffletechnology may be used with all Canon imageFORMULA CR-Series check transport products, including the Canon CR-25, CR-55 and CR-180. The card will be available through authorized Canon dealers and resellers, and select distributors immediately.
