“We truly enjoy helping people as part of what we do,” Ken C. Perrin, Senior Partner with the Financial Foundation Group says, “and although building homes with Habitat for Humanity is a far stretch from helping others with their retirement, college funds, or insurance needs, it is still about providing support and services to others.”

Habitat for Humanity is a home ownership program for hard working families needing safe and affordable homes. Habitat of Metro Denver is the 16th highest producing Habitat in the United States and only the 5th affiliate to

raise over a million dollars to aid Habitat affiliates in over 30 different countries. Habitat's belief is that everyone deserves a decent place to live and together with the help of organizations like the Financial Foundation Group, that belief is becoming a reality one community, one home, and one family at a time.

In 2002, the Financial Foundation Group through an affiliated company opened its doors with just three people. FFG has experienced a phenomenal growth rate over the past few years and today they have grown to have 6 offices and approximately 100 people affiliated with the organization.

"We believe our company has grown by leaps and bounds due to our dedication to helping our clients achieve their goals," Mr. Perrin explains. "We have concrete plans to open another office in Southern California in the next couple of months, and we want to make sure contributing to the community is highly encouraged in all offices. This way we can not only help our clients, but help those less fortunate achieve their goals as well."

Associates of the Financial Foundation Group are also registered representatives with and offer securities through InterSecurities, Inc. (ISI), member FINRA, SIPC. ISI, an AEGON company, is a national full service Broker/Dealer offering investment, retirement and insurance products and services which allows their representatives to offer financial products to suit each individual client's needs.

The knowledgeable staff at FFG has access to a wide array of investment products and can provide assistance with life insurance choices and providing wealth building strategies.
