

Server Partition Magic Alternative Solution: EASEUS Partition Manager Server

NEW YORK, N.Y., Jan. 14 (SEND2PRESS NEWSWIRE) – EASEUS Software, the leading hard disk management solution provider, today announces its upgraded version of server partition software: EASEUS Partition Manager 3.0 Server Edition, which is claimed as the “Partition Magic(TM) alternative.” Making up for the disadvantage of Partition Magic failing to work with Windows server, EASEUS Partition Manger Server 3.0 Edition allows corporate IT administrators to resize or move server partitions without data loss.

Partition Magic is well-known hard disk partition software which ceased upgrades to meet server administrator needs; especially in the server partition management field.

To meet the needs of server users, EASEUS Partition Manager 3.0 Server Edition focuses on server partition management.

Unlike Partition Magic, EASEUS Partition Manager Server 3.0 Edition is a comprehensive server partition solution for Windows Server 2000/2003/2008 and Windows 2000/XP/Vista, allowing you to Resize and Move, Copy, Create, Delete and Format, Hide and Unhide server and non-server partitions; and much more without data loss. These functions make EASEUS Partition Manager Server 3.0 Edition the ideal Partition Magic alternative for server partition needs.

Moreover, with its user-friendly interface, all functions are easy to get access in the same way you once used Partition Magic. So, if your computer is a server, try EASEUS Partition Manger Server 3.0 Edition to manage your server partitions.
