

Latest Version of EASEUS Partition Manager Server Edition is Released with New Name – EASEUS Partition Master 3.0.2 Server Edition

CHENGDU, China and NEW YORK, N.Y., Feb. 26 (SEND2PRESS NEWSWIRE) – EASEUS, a leading hard disk management solution provider, today announced the latest version of EASEUS Partition Manager Server Edition with a new name: EASEUS Partition Master 3.0.2 Server Edition. “We are committed to providing our customers with best-quality products and support, and continuous development is what we pursue all the time,” said the CEO of EASEUS. Aiming at this, EASEUS products consistently exceed expectations and provide customers with more and more advanced and easy-to-use software.

EASEUS Partition Master 3.0.2 Server Edition, like its new name, is a master in the aspect of disk partition. It is a comprehensive server partition utility with powerful functions, such as Resize, Move, Copy, Create, Delete, Hide and Unhide of partitions.

Working as a PartitionMagic(TM) Server Alternative, this server partition software is released with even more advanced features. With hardware RAID supported, EASEUS Partition Master 3.0.2 Server Edition is perfectly compatible with Windows Server 2000/2003/2008 and Windows 2000/XP/Vista desktop (32/64 bit) systems.

Furthermore, with its simple interface, users can easily resize and move partitions with this server partition software, no matter your expertise on PCs or servers. But the most outstanding feature is definitely the fact that you can move and resize partitions without erasing them or losing any data.

Partitioning with this utility significantly optimizes partition performance and provides users with tangible benefits. So for server users, to partition a disk with EASEUS Partition Master 3.0.2 Server Edition might be a good choice.
