

Good News for Businesses Struggling to Stay Afloat in Hard Economic Times

MONTREAL, Quebec, Canada, March 24 (SEND2PRESS NEWSWIRE) – SherWeb, a global Hosted Exchange solutions provider, has responded to the need for businesses to develop email solutions in a tough economy with their March Madness Promotion. Until April 1, 2009, businesses with more than 75 user accounts get three months of free Blackberry and Hosted Exchange service when signing up with SherWeb.

“Knowing how much time and money can be involved in the management of an in-house Exchange server, we want to propose the best hosted email solution at prices no one can decline,” stated Pierre-Olivier Descoteaux, SherWeb Marketing Director. “Plus, what better occasion than March Madness to introduce the most aggressive offer on the market!” he concluded.

With the growth of SaaS (software-as-a-service), Microsoft Hosted Exchange has become the latest go-to solution for secure, affordable, and versatile email management.
