

PrettyMay Introduces Sangoma-Powered Skype PBX Gateway That Integrates Seamlessly with Legacy Systems

Solution Can Be Used as Standalone PBX System, Or Enable Legacy PBX to Make Skype Calls

SUZHOU, China, June 16 (SEND2PRESS NEWSWIRE) – PrettyMay Inc., the provider of Windows-based Skype PBX and Gateway products, today announced a new **Skype PBX Gateway** solution, powered by Sangoma® Technologies Corporation A200 and B600 series analog cards. Equipped with the Sangoma voice cards, the gateway now integrates seamlessly with existing PBX systems, as well as with external legacy networks.

Send2Press® Newswire

The PrettyMay Skype PBX Gateway can be used as a standalone Skype PBX system, which is ideal for small businesses that need an easy-to-use, inexpensive phone system with both Skype and PSTN network compatibility.

For enterprise users that already have an office phone system and need a solution to integrate Skype services into its PBX, PrettyMay's Skype PBX Gateway enables internal extensions to make low-cost international calls through the SkypeOut service.

Whether it's for interfacing with external networks or with existing office phone systems, Sangoma's [analog voice cards](#) provide seamless connectivity and superior voice quality in a small form factor.

"Sangoma offers the most scalable and reliable voice cards on the market," said Fu Lei, marketing director for PrettyMay. "We are very pleased with the performance of Sangoma cards."
