

Free Backup Software to Secure Your System and Data with One Click Backup and Restore

NEW YORK, N.Y., Aug. 3 (SEND2PRESS NEWSWIRE) – EASEUS wins a lot of users' applause with its EASEUS Partition Master and Data Recovery Wizard, and now enters the backup field with its newly developed free backup software: EASEUS Todo Backup 1.0, which is especially designed for system state backup and system disaster restore. The release of this free backup software, EASEUS Todo Backup 1.0, aims to provide a quick and safe solution for system and data.

Send2Press Newswire

Have you encountered the bad experience of a system crash caused by virus infection, false operation, wrong deletion, or other unexpected accidents? System reinstallation is a choice to get the system up which, however, is also the most time-consuming method. EASEUS Todo Backup will save you hours on reinstalling the system. The full functional system can be backed up to an image, and be restored to the previous state in minutes, by just a few clicks with this free backup software.

Besides system backup, the free backup software also does a good job in backing up partitions and disks, as well as disk cloning. The settings in the "Option" column are designed to be personalized. All can be set by users themselves according to their needs, including: compress image file to save space; split image files to fit different storage devices; exclude page files or temp files and encrypt image files to prevent illegal access to the backup image, etc.

"In keeping with our commitment to deliver high quality and easy-to-use backup software, this version includes wizard-based controls that walk users step-by-step through the backup and restore processes," said Mr. Liu, CEO of EASEUS, "You can rely on EASEUS Todo Backup and we will improve it with more advanced functions in the following upgraded versions by unremitting efforts for our users."

Availability

EASEUS Todo Backup is totally free to use. It supports nearly all major Windows systems, like Windows 2000 professional/XP/Vista and Windows Server 2000/2003/2008. For more information about this free backup software, please
