“I could not be more excited about My Memories Cafe,” said Teague Bengtzen, President of Global Access. “The technology that powers the site has already won numerous awards. In fact, it was voted easier and more fun to use than Snapfish, Shutterfly and Kodak Gallery in an Info Trends survey.” (Ref: Web-Based Digital Photo Applications: A Focus Group Assessment.)

The software is easy to use and has more features than its competitors. A person can choose from different templates and themes to find their ideal look. The person can simply click a button and the whole book will be created for them or they can choose to make every page themselves. Included in the site are many editing tools typically reserved for professionals. Some of these tools include embellishments, layering (for a 3D look), photo editing, journaling and much more.

Global Access was founded in 2005 and quickly built a reputation for building advanced technologies to help companies automatically get their direct mail printed and delivered more quickly. Global Access has 3 divisions: Card Cafe, 1:1 Specialists and My Memories Cafe.
