

Vermont Post and Beam Shed Company Opens Burlington Retail Outlet

JAMAICA, Vt., Aug. 21 (SEND2PRESS NEWSWIRE) – Jamaica Cottage Shop, Inc. announced today that they have partnered with the newly developed company, Vermont Eco Cottage, in order to establish the most recent display/retail yard in Milton, Vermont. Established in 1995, [Jamaica Cottage Shop](#) (JCS) had been operating as a factory direct business, retailing its timber frame sheds solely in house, until two years ago when they partnered with Hoosick Valley Outdoor Products and opened second display yard in Hoosick Falls, New York.

Now with the launch of this new site at 530 Rte 7 South in Milton, JCS is able to offer storage shed solutions to the greater Burlington, Vermont area. Contact Vermont Eco Cottage at 802-893-3534.

Jamaica Cottage Shop's most popular designs can be seen in Burlington, including the 8×10 Vermonter, 6×14 Weekender, a combination firewood and storage shed, the Victorian style shed 8×12 Dollhouse and 16×20 Vermont Cottage. These unique storage shed designs are all Jamaica Cottage Shop's original creations. The designs are rugged, most with board and batten siding and painted metal roofs. Uses for these outdoor storage sheds include garden sheds, storage sheds, potting solutions, firewood storage, chicken coops camping and hunting cabin retreats.

The display area houses fully assembled buildings that can then be ordered as pre cut shed kits, step by step plans, showing you how to build a post and beam shed, or fully assembled buildings, delivered to the client prepared site in one piece.

According to owner, Domenic Mangano, the pre-cut kit is the most popular way to order a building it is designed as a do-it-yourself project for the beginner novice carpenter. "Each pre-cut piece is color-coded and part numbered that matches a detailed cut list."

By using native Vermont hemlock and pine lumber to build their post and beam cottage kits, JCS is supporting local land owners, foresters, loggers and sawmills and in turn supporting your local economy.
