

# PGA Awards PivotPro Top Ranking For New Product

LOUISVILLE, Ky., Sept. 29 (SEND2PRESS NEWSWIRE) – PivotPro announces that its newly-launched golf training aid, the PivotPro, was the recipient of the prestigious “Best New Product” award at the recent PGA Fall Expo in Las Vegas.

Out of hundreds of exhibitors, only three companies were nominated for this award. Top buyers from around the globe were present for judging.

The event was attended by more than 3,000 PGA pros, buyers, tournament players and instructors who understand the value of a golf teaching aid such as the PivotPro.

“This award is the culmination of seven plus years of in-depth research and development,” Sam Shah, president PivotPro, says. “And, our efforts have paid off.”

Shah explains that the PivotPro bridges a much-needed gap in the golf teaching aid market.

“The PivotPro offers a solution to correct pivoting,” Shah says. “And, with correct pivoting comes a correct and consistent swing – the key to a better golf game.”

The PivotPro was awarded best new product due to its innovative design and ease of use. It helps players to properly load against their right leg to achieve a powerful, smooth and consistent swing each time. It’s designed to develop muscle memory, improve torque and increase club head speed.

It’s also versatile. The PivotPro is adjustable for all ages, sizes and abilities. It’s lightweight, made of durable, high-grade materials and can be used indoors or out.
