

# Taycor Financial Hopes Small Businesses Take Advantage of 179 Tax Code While Also Helping Those in Need

LOS ANGELES, Calif., Dec. 4 (SEND2PRESS NEWSWIRE) – Taycor Financial is a leading provider of [equipment leasing and financing](#) and has launched a nationwide drive to encourage small businesses to take advantage of the tax benefits available to them through Section 179. This IRS tax code is a provision specifically designed to bolster business investment in depreciable commercial properties and equipment.

To encourage small businesses to take advantage of the Section 179 bonus depreciation, Taycor Financial is going to make a \$179 cash donation to the client's favorite charity for every \$10,000 in financing they transact through Taycor Financial before December 31, 2009.

"Essentially all businesses and individuals acquiring equipment for primarily business use can choose to use the Section 179 deduction," says Bob Skibinski, CEO.

"Depending on the tax and legal structures of your business, there may be different limits and guidelines that will need to be understood before electing the deduction. However, we always suggest that you consult with your tax professional to ensure the allowed deductions are being made."

## **About Taycor Financial:**

Founded in 1997, with offices in Los Angeles, Calif., and Boston, Mass., Taycor Financial is a fiscally sound and economically responsible partner for all forms of equipment financing solutions. The company strives to help vendors, dealers and manufacturers of any industry to gain access to the best possible financing and leasing options for their customers, for any type of new or used equipment from \$5,000 up to \$5 million.

Taycor's aim is to provide first class financial expertise along with offering the fastest, most reliable service in the equipment leasing industry.
