

# Many California Companies in Need of Training

LOS ANGELES, Calif., Dec. 4 (SEND2PRESS NEWSWIRE) – Lion Technology Inc., a nationally renowned regulatory compliance training firm, will present several two-day Hazardous Waste in California workshops during the month of January. These courses are designed for industry professionals that must assure compliance with California's hazardous waste regulations. Workshops will be held in Los Angeles on January 11-12; Santa Barbara on January 14-15; Fresno on January 18-19; and San Francisco on January 21-22.

Tuition is \$795 per person, with group discounts available. Registration includes hands-on instruction, course reference materials, networking luncheon, certificate of achievement, and one year of follow-up support. Group discounts apply to three or more registrations. Sign-in begins at 7:30 a.m.; the workshop begins at 8:30 a.m. on the first day and 8 a.m. on the following day, with the workshop concluding at 4:30 p.m. each day. Pre-registration is recommended. To register, call (888) 546-6511, or visit us online at [www.lion.com](http://www.lion.com).

Almost a year ago, the California Environmental Protection Agency (CAL/EPA) revised the hazardous waste regulations (Title 22) and added new training provisions and standards for handlers of universal waste; a change that affects companies throughout the State. Many companies, however, have yet to comply with the new training standards set forth by CAL/EPA.

Since universal waste includes many commonly produced waste items such as light bulbs, aerosol cans, cathode ray tubes, mercury thermostats, LCD or plasma screens, and batteries, the implications of this new regulation will be felt throughout California, as companies from many different industries work to train their employees on the latest California universal waste regulatory changes.

As with any major regulatory change, it is important to properly train facility personnel and review operational processes to assure compliance. At Lion's workshops, students are provided the opportunity to address any questions pertaining to the new requirements.
