

# Totally Free and Full Functional Data Recovery Software Welcomes You to Try and Test

NEW YORK, N.Y., Jan. 7 (SEND2PRESS NEWSWIRE) – The only totally free and fully functional data recovery software on the market – EASEUS Data Recovery Wizard 4.8 Beta – invites more testers to grab the free download and recover their lost data. PC users can lose valuable information for different reasons, such as format recovery, delete recovery, even partition loss data recovery. Data Recovery Wizard is now available for Windows 2000/XP/2003/Vista/2008 and Windows 7 operating systems and expects to be a higher quality product with the support of its enthusiastic beta testers.

EASEUS Data Recovery Wizard 4.8 Beta is totally free, with comprehensive data recovery functions and builds on the success of EASEUS Data Recovery Wizard 4.3.6, which is already a popular data recovery application; and is highly recommended by editors of [famous IT sites](#) and its users, such as [tucows.com](#), [PCworld](#), etc. With Data Recovery Wizard 4.8 Beta, you can recover deleted, formatted files or lost data due to partition loss or damage, software crash, virus infection, unexpected shutdown – or any other reasons. Additionally, it works well with hardware RAID and hard drives, USB drives, SD cards, memory cards, memory sticks and other storage media.

New features of Data Recovery Wizard 4.8 Beta include support of Windows 7 and Windows 2008, quicker hard drive scan, and enhanced performance of data recovery.

Focused on providing high quality data recovery, EASEUS software, an innovative and dedicated data recovery software provider, opens all data recovery features included in Data Recovery Wizard 4.3.6 (current commercial version) in this pre-release free version for more testers for data recovery.

According to the company: “We believe, with your help of testing this free data recovery software, we will take a great step towards making the professional data recovery software users really need. You’re welcome to test this free file recovery software!”
