

The World's First iPhone Compatible Motorcycle Headset

NEWPORT BEACH, Calif., Jan. 26 (SEND2PRESS NEWSWIRE) – iMC Motorcom announces the release of the world's first iPhone compatible motorcycle headset: the HS-500. The HS-500 allows motorcycle riders to utilize the phone and music functions of their Apple® iPhone and other 3.5 mm (standard stereo headset jack) equipped cell phones, including the Palm® Pre™ and Blackberry® Storm™.

The HS-500 features dual slim stereo speakers, a microphone, and a handlebar-mounted control button. The directional noise-cancelling microphone will give riders the option of communicating clearly with people who need to reach them on the road.

The handlebar-mounted control button allows riders to take and end phone calls, play or pause music, and even advance and rewind tracks on their iPhone. The HS-500 is available for the retail price of \$68 at motorcycle dealers already stocking iMC Motorcom products and online at www.imcmoto.com.

Features:

- Compatible with Apple Voice Control (iPhone 3GS and iPod® shuffle™ [3rd generation]).
- Headphone and microphone functionality with most 3.5 mm-equipped cell phones (see Product compatibility).
- Velcro® strap-mounted handlebar remote control button also runs basic iPhone music playback and provides additional functions for most phones.
- Large diameter (36 mm) wafer-thin speakers (6 mm) provide unsurpassed sound fidelity.

Product compatibility:

The HS-500 headset is compatible with the 3.5 mm-equipped devices listed below. If unsure about a device's compatibility, please contact us.

- Apple: iPhone, iPhone 3G, iPhone 3GS.
- BlackBerry: Pearl™ 8110, 8120, 8130; Pearl Flip 8220; Curve™ 8300, 8310, 8320, 8330, 8520, 8900; Bold™ 9000; Storm™ 9530; Tour™ 9630.
- HTC: Touch Pro2 (Sprint), Touch Pro2 (Verizon).
- LG: Rhythm™ AX585/UX585, Chocolate® 3 VX8560, Dare™ VX9700, enV Touch™ VX11000, Incite CT810.
- Motorola: MOTO™ EM330, Rival™ A455, MOTOROKR™ E8, DEBUT™ i856, Karma™ QA1, Hint™ QA30, Krave™ ZN4, MOTOZINE™ ZN5.
- Palm: Palm Pre, Treo™ Pro.
- Samsung: Instinct® HD (SPH-M800), TwoStep™ (SCH-r470), Trance™ (SCH-u490), Rogue™ (SCH-u960).
- Sidekick®: Sidekick LX (2009), Sidekick LX, Sidekick (2008).

Who is the HS-500 for?

A great choice for music-loving, multitasking cell phone users who want unique control of music, easy call navigation, and superior sound. Using a wired headset will provide longer battery life for your cell phone on those

long rides compared to utilizing Bluetooth® technology. Just plug it in and ride!

What's in the box?

- 1 – 3.5 mm lower cord
- 1 – Upper helmet headset with two high-fidelity stereo speakers and microphone connector
- 1 – Boom microphone (detachable)
- 4 – Velcro speaker enclosures with adhesive mounting
- 1 – Package of tape strips for excess wiring
- 1 – Removable control button.

Warranty: Two years.

Who is iMC Motorcom?

iMC Motorcom has been developing motorcycle audio and communication equipment in Germany since 1992. From the first stereo Bluetooth motorcycle headset (BHS-500) to the first Apple iPhone specific motorcycle headset (HS-500), iMC Motorcom is a leader in innovation and quality in motorcycle communication. Also backed by an industry-leading two-year warranty, it is no wonder riders who care about what goes in their helmet choose iMC Motorcom products.
