

EASEUS Partition Master – Professional Partition Manager to Relieve Your ‘C Drive is Full’ Headache

NEW YORK CITY, N.Y., March 16 (SEND2PRESS NEWSWIRE) – Just like one IT editor stated: although it is not likely a daily activity to resize, move, create, change, copy, format and extend a system partition or non-system partition on your desktop, eventually you need one reliable professional partition management application to help you manage system or non-system disks under Microsoft Windows®. Especially when the computer indicates “C drive is full,” or out of space, and because the partition management tool built-in to Windows provides limited capability.

“According to the reports from our technical support team, most users write to get help to extend system partition for their desktops or servers due to ‘C drive is full’ or out of space messages, especially server users,” says EASEUS Software. The EASEUS Partition Master solution can solve server “drive full” problems without reboot to minimize the downtime and maximize the efficiency of the server.

EASEUS Partition Master – the professional partition manager and system optimization software picked by editors from CNET, PCWorld, etc. – is just the right solution to resize the C drive (system partition) without data loss and efficiently manage hard drives; and the most attractive feature for server users is that you need not reboot the server if you plan to extend C drive with the NTFS file system, which no doubt will save a lot of time and money.

Working well under Windows 2000/XP/Vista, Windows 7 and Windows server 2000/2003/2008, including both 32 bit and 64 bit systems – and supporting hard drive, external USB drive and RAID – EASEUS Partition Master is certainly your must-have partition tool to manage hard drives.

Pricing and Availability:

Web Special \$159 (originally \$199) for Windows Server users is available if you buy it from EASEUS’ Web site at partition-tool.com/easeus-partition-manager-server/.

EASEUS Partition Master Professional Edition is available at the price of \$39.95 directly from EASEUS’ Web site at partition-tool.com/professional.htm.

Additionally, free for home users, EASEUS Partition Master Home Edition enjoys most of the commercial version features and works well under Windows 2000/XP/Vista/Windows 7 32-bit. Download it now here: www.partition-tool.com/personal.htm .
