

Extend Windows Server 2008 with EASEUS Partition Master Server, No Tweaking, No Fuss!

NEW YORK CITY, N.Y., March 23 (SEND2PRESS NEWSWIRE) – Many IT managers ask: is a Windows Server 2008 partition manager available? Windows server 2008, which has expanded existing technology and added new features to enable organizations to increase the reliability and flexibility of their server infrastructures, is often the platform of choice for many server users. Therefore, a Windows server partition manager will definitely be an essential tool for efficient Windows server 2008 hard disk management.

Although you may not use a partition manager often, when you do need it, you'll be glad it's there. Though Windows Server 2008 offers a new collection of disk management commands that can allow a disk to be extended or shrunk while online, it is actually pretty limited. EASEUS Partition Master Server can simplify the task to extend Windows sever 2008 and save time and money.

EASEUS Partition Master Server Edition, a leading and innovative Windows server partition management software to maximize server performance and minimize server downtime, works well under Windows server 2000, 2003 and 2008, for both 32 bit and 64 bit. Providing both basic and advanced partitioning features to help you extend system partitions, repartition hard disks, free up disk space, resize and move a partition, etc.

You will be free from partition disk troubles like "system partition out of space." Most importantly, it enables you to extend a NTFS system partition without rebooting – no downtime, no data loss!

One user had this to say about EASEUS Partition Master Server Edition: "I am a happy customer! I recently bought, downloaded and installed the latest version of Partition Master Server edition so I could extend my C: drive – VIOLA! It worked perfectly, no glitches, no hang-ups, only a perfectly extended C: partition. Now instead of 500MB of free space on C: drive I have 20 gigs of free space. Totally awesome – and thanks for a great product."

Pricing and Availability:

Web Special \$159 (originally \$199) for Windows Server users is available if you buy it from EASEUS' website at partition-tool.com/easeus-partition-manager-server/.
