

The First World-wide Comprehensive Free Data Recovery Software to Rescue Your Valuable Data

NEW YORK, N.Y., May 18 (SEND2PRESS NEWSWIRE) – EASEUS Software, a provider of innovative and professional data recovery software, provides users one comprehensive data recovery freeware: EASEUS Data Recovery Wizard Free Edition. Boasting all features of the licensed data recovery wizard, this free edition now allows users to recover 1 GB of data for free; it is the first freeware data recovery application worldwide which provides more powerful data recovery solutions than any other free data recovery software.

Compared to other free data recovery software solutions, EASEUS Data Recovery Wizard Free Edition offers a more comprehensive data recovery suite for data recovery. It can not only recover lost files due to deletion from the Recycle Bin, formatting, partition loss or damage, or a software crash. Most importantly, it can recover lost files with their original file names and storage paths – which other freeware apps cannot do – and it's also compatible with dynamic disks, RAID and Linux file systems.

“Our commitment is to our customers,” Mr. Liu, CEO of EASEUS.com said. “We are aiming to deliver a first-class, powerful free data recovery software for users all over the world to solve nearly all kinds of data loss problems.”

The downloads of this free data recovery software at the famous download site – Download.com – have reached around 10,000 for the week since its release. And many users who downloaded the software to recover lost files from their hard drive, CF card or other storage media give it a “thumbs-up.”

To ensure that users have great control over their file recovery, especially when it comes to privacy, EASEUS suggests users should recover their lost files with EASEUS Data Recovery Wizard Free Edition. The easy to use and fully functional – and free – data recovery software is available from EASEUS to make your files safe and save you money!

Pricing and Availability:

Data Recovery Wizard Free Edition 5.0.1 runs under Windows 2000, XP, 2003, Vista, 2008, Windows 7 and is totally free for everyone. More information and free download is available from easeus.com/datarecoverywizard/free-data-recovery-software.htm.
