

# TeleManagement Technologies Announces New Partnerships in Licensed, Outsourcing Services for Telecom Expense Management

WALNUT CREEK, Calif., June 15 (SEND2PRESS NEWSWIRE) – TTI, the leader in Telecom Expense Management (TEM) software solutions (WinBill®), and Enterprise Call Accounting and CDR reporting software solutions (WinCall®), is pleased to announce three new client partnerships in the past 60 days. All three companies are leaders in their industry and have chosen to answer their organization's TEM needs with TTI's WinBill® Telecom Inventory and Expense Management Software solution.

One of the world's largest publicly traded bio-technology firms headquartered in Northern California has contracted with [TeleManagement Technologies](#) to purchase the WinBill® licensed solution to better manage and control telecom and IT related expenses and inventory. As part of the solution, TTI's Professional Service team will provide industry Best Practices as it relates to process flow of telecom invoices, help in managing telecom vendor contracts, as well as audit, optimization and recovery services.

TTI has also been selected for a major WinBill® outsourcing contract with a New York Stock Exchange traded Financial Management and related financial products software provider located in the San Francisco Bay Area, CA. Under the agreement, TTI will host and manage WinBill® on behalf of our client, who is outsourcing the telecom expense process including landline, data, wireless mobile management (WMM), monthly audit and recovery services, wireless procurement and provisioning, and wireless help desk.

"TTI is very excited to grow our outsourcing client base." said Charles Coakley, Vice President of Sales for TTI. "TTI has always been known as a leader in the TEM licensed space, but many don't realize we can provide even more value, expertise and results for clients who choose an outsourced solution."

Finally, a New Jersey Advertising and Marketing company has selected both WinBill® TEM and WinCall® Call Accounting licensed solutions for their TEM and CDR reporting needs. The client has upgraded to the Avaya VoIP PBX platform and chosen WinCall® CDR Call Accounting. As a marketing and advertising company, the firm has very specific client tracking and bill-back needs. WinCall fits this unique need to track all calls made on behalf of a specific client(s) or project(s) and provide detailed reporting and the ability to generate client invoices, along with WinCall's other powerful features.

After 23 years as a [Telecom Expense Management and Call Accounting solutions](#) leader, TTI is pleased to continue to provide value in the TEM marketplace

for our clients and expand the focus on our Professional Services and outsourcing offerings. As businesses look to recover from the tough economic climate over the last 18 months, TTI is seeing an increase in outsourcing requests from new and existing clients as efficiency, scalability and deploying new workforce business models take center stage.

**About TeleManagement Technologies, Inc. (TTI):**

TTI, headquartered in Walnut Creek, CA, is recognized as the most experienced Telecom Expense Management vendor in the marketplace. Since 1987, TTI has demonstrated its ability to quickly adapt and develop solutions for ever-changing telecom management challenges. TTI's product offerings include WinBill® TEM (Wireline & Wireless Telecommunications Expense Management), WinBill Order Desk, Wireless Help Desk, WinCall® (Enterprise Call Accounting) and extensive professional services that include audit, consulting, and contract negotiations for both landline and wireless communications services.

TTI's products can be delivered in various formats: licensed, hosted or on a subscription basis. TTI's solutions are focused on giving organizations the ability to manage, monitor, and order all of their telecommunications and IT services through a secure, centralized hub. TTI's expense management offerings serve many Fortune 500 companies in various industries as well as many government and utility organizations.
